SUBJECT INDEX

A

Abstracts of the Proceedings of the Urological Society of Australasia: 35th AGM, Canberra, Australia, 1982, 101
Acetohydroxamic acid, the effect of oral, on urinary saturation in stone-forming spinal cord patients, 162
Adriamycin, *see* Doxorubicin
Alkaline phosphatase, serum placental, a clinical evaluation of, in seminoma patients, 73
Aneurysm of the common iliac artery, testicular pain in a patient with, 447
Atherosclerosis and vasectomy: an association in man?, 430
AUTHORS' FOLLOW-UP
ABRAMS, P. H., SKIDMORE, R., POOLE, A. C. and FOLLETT, D. The concepts and measurement of bladder work, 199
JAMES, E. D. The bladder during physical activity: further views on natural-filling urodynamic investigations, 570
O'REILLY, P. H., SHIELDS, R. A., TESTA, H. J. and EDWARDS, E. C. ^{123}Iodine. A new isotope for functional renal scanning, 571
Autotransplantation, the role of, in idiopathic retroperitoneal fibrosis, 254
Azoospermic males, exploratory scrototomy in 168, 785

B

Bilharzial strictures of the lower third of the ureter: a critical review of 560 strictures, 477
Bladder cancer, ABO, MNSs and rhesus blood groups in, 377
cancer, superficial, a phase II study of intravesical Mitomycin C in the treatment of, 676
superficial, prognostic significance of biopsy results of normal-looking mucosa in cases of, 665
T3, NX, MO, treated with radiotherapy, adjuvant chemotherapy with doxorubicin (Adriamycin) and 5-fluorouracil in, 386
use of the tumour colony assay in the evaluation of patients with, 271
carcinoma of the urinary, in Zambia. A quantitative estimation of *Schistosoma haematobium* infection, 275
urinary carcinoembryogenic antigen (CEA) in the diagnosis and follow-up of, 501
cavernous haemangioma of the, 450
diverticula, large, treatment of, 17
during physical activity: further views on natural-filling urodynamic investigations, 570
epithelium, permeability and ultrastructure of human, 488
in enuretic children, histological and urodynamic study of the, 367
instability. Is the primary defect in the urethra?, 648
neck in male bladder neck obstruction, the structure of the, 279
neck incision, extended, for outflow obstruction in male patients, 225
neck incision in the female: a hazardous procedure?, 283
or renal pelvis in women, phenacetin-containing analgesics and cancer of the, 220
recurring superficial transitional cell carcinoma of the, intravesical instillation of mitomycin C in the prophylactic treatment of, 382
spontaneous perforation of, in association with malignant disease and schistosomiasis, 126
training—3 years on, 660
transection for urge incontinence, long-term results of, 642
trigone in adult women, the incidence and significance of vaginal metaplasia of the, 189
tumours, vesicoureteric reflux in patients with, 483
urinary, intramural ganglia of the human, 195
vasoactive intestinal polypeptide in the normal and unstable, 645
volume, the accuracy of a hand-held real time ultrasound scanner for estimating, 25
volume, the accuracy of ultrasound in the measurement of changes in, 361
work, the concepts and measurement of. A review after 6 years, 199
Bleomycin in squamous cell carcinoma of penis, adjuvant treatment using: study of 19 cases, 542

Current Urological Literature, i, xxi, xlvii
Cyst(s), benign renal, should it be treated?, 457
epididymal, and hydroceles, sclerosant therapy for, 81
parapelvic, in a horseshoe kidney, 335
Taenia echinococcus, in the prostate, 130
the spectrum of peripelvic, 150
Cystinuria, homozygous, a possible genetic variant of, 121
Cystitis following radiation, cutaneous ureterostomy as last resort treatment of intractable haemorrhagic, 392
interstitial, and other types of chronic cystitis, histamine content and mast cell count of detrusor muscle in patients with, 495
Cystography and intravenous urography, do they provide important information in otherwise healthy women with recurrent urinary tract infection?, 261
Cystoscopy, asepsis and out-patient, 680
carbon dioxide versus water for: a comparative study, 364

D

Distigmine bromide and post-prostatectomy voiding, 229
Diuresis in the upper urinary tract, does perfusion equal?, 133
Diverticula, large bladder, treatment of, 17
Doxorubicin (Adriamycin) and 5-fluorouracil in T3,NX,MO bladder cancer treated with radiotherapy, adjuvant chemotherapy with, 386
low-dose, in the management of advanced carcinoma of the prostate, 747

E

Ejaculation and urinary flow studies, effects on: island patch urethroplasty, 69
Endocrine function, testicular, after withdrawal of oestrogen treatment in patients with carcinoma of the prostate, 42
Endoscopic resections, the composition and origin of the gas produced during urological, 294
Enuretic children, histological and urodynamic study of the bladder in, 367
Epididymal cysts and hydroceles, sclerosant therapy for, 81
Epididymis, torsion of the appendix, in a maldescended testis, 244
Epididymo-orchitis, tuberculous. A review of 20 cases, 437
Estramustine phosphate and stilboestrol, change in white cell count during treatment of advanced cancer of the prostate with, 408
Exstrophy, the patient with, in adult life, 632

F

Fibrosis, idiopathic retroperitoneal—the role of autotransplantation, 254
Fistula, cysto-uterine, 245
nephro-bronchial, 334
pleuro-colonic, secondary to calculous pyonephrosis, 125
uretero-uterine, as a complication of ureteric calculus, 242

Fistulae involving rectum and urethra: the place of Parks's operations, 711
Flurbiprofen, a non-steroidal anti-inflammatory drug to control idiopathic hypercalciuria resistant to dietary manipulation, 599
Fournier's gangrene: necrotising fasciitis of the male genitalia, 85

H

Haemangioma, renal: emergency partial nephrectomy, 336
Hellstrom operation for hydronephrosis, 146
Hodgkin's disease and testicular cancer, semen analysis in: pre- and post-treatment findings and implications for cryopreservation, 769
Hydroceles and epididymal cysts, sclerosant therapy for, 81
Hydronephrosis in a child, transitional cell papilloma of the ureter causing, 572
obstructive nephropathy in experimental, measured by the distal nephron index, 140
the Hellstrom operation for, 146
Hypercalciuria resistant to dietary manipulation, a non-steroidal anti-inflammatory drug (flurbiprofen) to control idiopathic, 599
Hypospadiacs, micturition studies and sexual function in operated, 422

I

Ileal conduit, isolated ileal loop augmentation of existing, 183
Incontinence, a simple treatment for urinary: periurethral Teflon injection, 208
female motor urge, Placebo—the drug of choice in?, 34
further experience of free muscle transplantation in children with urinary, 211
stress, a trial comparing the Stamey bladder neck suspension procedure with colposuspension for the treatment of, 687
the management of female, by suprapubic catheterisation, with or without urethral closure, 203
urge, long-term results of bladder transection for, 642
urinary, associated with detrusor instability in elderly women, emepronium bromide and flavoxate hydrochloride in the treatment of, 371
Indomethacin—an alternative to pethidine in ureteric colic, 6
Infection, a quantitative estimation of *Schistosoma haematobium*. Carcinoma of the urinary bladder in Zambia, 275
of urinary tract in children, too many cystograms in the investigation of?, 217
recurrent urinary tract, do intravenous urography and cystoscopy provide important information in otherwise healthy women with?, 261
wound, following vasectomy, 564
Infertility, carcinoma *in situ* in testicular biopsies from men presenting with, 780
Irrigation system, are we using the right?, 287

K

Kidney(s), *see also* Renal
angiographic findings in the, in the Laurence-Moon-Biedl syndrome, 243
is the solitary kidney a privileged?, 460
malignant non-chromaffin paraganglioma with metastases to the, 332
parapelvic cyst in a horseshoe, 335
skeletal scintigraphy in carcinoma of the, 171

L

Laser fragmentation of renal calculi, 613
Leiomyoma, obstructive urethral, in a female, 239
Lignocaine, blood concentration of, after application of 2% lignocaine gel in the urethra, 64
test and detrusor instability, 493
Lipoma of the spermatic cord in childhood, 572
Lymphangiography, combined bipedal, CT scanning and transabdominal lymph node aspiration cytology for node staging in carcinoma of the prostate, 538

M

Mazindol in the control of micturition, 636
Metastases to the kidneys, malignant non-chromaffin paraganglioma with, 332
Metastasis, giant, from prostatic neoplasm mimicking osteogenic sarcoma, 446
Metastatic disease, response in advanced: chemotherapy of primary (*in situ*) testicular tumours, 560
germ cell tumours, evaluation of radiotherapy and/or surgicopathological staging after chemotherapy in the management of, 764
Microcomputers and microprocessors in urology: present and future, 588
Micturition, Mazindol in the control of, 636
Mitomycin C, intravesical, in the treatment of superficial bladder cancer, a phase II study of, 676
intravesical instillation of, in the prophylactic treatment of recurring superficial transitional cell carcinoma of the bladder, 382

N

Nephrocalcinosis, inhibition of experimental, with a prostaglandin synthetase inhibitor, 603
Nephrolithotomy, percutaneous, 609
Nephropathy, obstructive, in experimental hydronephrosis, measured by the distal nephron index, 140
Nephrostomy, percutaneous, in pelviureteric junction obstruction in children, 356
under guidance of ultrasonography and fluoroscopy using a pigtail catheter, 257
NEW INSTRUMENTS
TINCKLER, L. F. A catheter suspender, 445
TINCKLER, L. F. Uretero-lithotomy *in situ*—a uretero-lithotomy forcep, 100

O

Obstruction in children, the site of functional infravesical, 395
incomplete, of the male genital tract: a cause of oligozoospermia, 545
outflow, in male patients, extended bladder neck incision for, 225
pelviureteric junction, in children, percutaneous nephrostomy in, 356
the structure of the bladder neck in male bladder neck, 279
Oestrogen treatment in patients with carcinoma of the prostate, testicular endocrine function after withdrawal of, 42
Oligozoospermia, incomplete obstruction of the male genital tract: a cause of, 545
Orchiectomy alone for Stage I testicular non-seminoma, 754
in advanced prostatic cancer, a local anaesthetic technique for, 246
Orchiopexy, torsion after previous, 578
trans-septal ipsilateral positioning, 79
Otis urethrotomy, a controlled trial of, 694

P

Papilloma, inverted, of the upper urinary tract, 176
transitional cell, of the ureter causing hydronephrosis in a child, 572
Parkinsonism, urethral sphincter abnormalities in, 691
Pelvic evoked responses, 639
Penile prosthesis in Peyronie's disease, 417
urethra, strictures of the, 235
Penis, adjuvant treatment using bleomycin in squamous cell carcinoma of: study of 19 cases, 542
tuberculosis of the, 242
verrucous carcinoma of the, (Bushke-Lowenstein tumour): a clinico-pathological study, 427
Percutaneous nephrolithotomy, 609
nephrostomy in pelviureteric junction obstruction in children, 356
under guidance of ultrasonography and fluoroscopy using a pigtail catheter, 257
Pethidine—indomethacin as an alternative in ureteric colic, 6
Peyronie's disease, penile prosthesis in, 417
Phenacetin-containing analgesics and cancer of the bladder or renal pelvis in women, 220
POINTS OF TECHNIQUE
HARRISON, G. M. A local anaesthetic technique for orchiectomy in advanced prostatic cancer, 246
KJAERGAARD, J. Use of a guide-wire for replacement of a ureteric stent, 581
Polyp, congenital urethral, in an adult, 576
pedunculated, of posterior urethra in a child, 575
Prizes and Awards, 792
Prostaglandin synthetase inhibitor, inhibition of experimental nephrocalcinosis with a, 603
Prostate, advanced cancer of the, change in white cell count during treatment with estramustine phosphate and with stilboestrol, 408
advanced carcinoma of the, low-dose doxorubicin in the management of, 747
carcinoma of the, combined bipedal lymphangiography, CT scanning and transabdominal lymph node aspiration cytology for node staging in, 538
incidental carcinoma of: selection for deferred treatment, 733
Taenia echinococcus cyst in the, 130
testicular endocrine function after withdrawal of oestrogen treatment in patients with carcinoma of, 42
the "shrinkage" of, during transurethral resection, 38
Prostatectomy, suprapubic—combined technique, 522
Prostatic cancer, advanced, a local anaesthetic technique for orchiectomy in, 246
advanced, treatment with buserelin, an analogue of gonadotrophin releasing hormone, 737
bone marrow aspiration biopsy and bone scanning in the staging of, 534
in the younger man, the prognosis of, 315
treatment with long-acting LHRH analogue, 743
zinc, vitamin A and, 525
Prostatic carcinoma, accuracy of transcutaneous aspiration biopsy in the definitive assessment of nodal involvement in, 321
age and survival in, 529
Cor pulmonale in disseminated, 579
massive, in negroes, 312
prostatic acid phosphatase in serum and bone marrow in patients with, 306
Prostatic disease, computed tomography and transrectal ultrasound in the diagnosis of—a comparative study, 726
progress in transrectal ultrasonography for, 721
Prostatic neoplasm mimicking osteogenic sarcoma, giant metastasis from, 446
resection after relief of acute retention of urine by prolonged catheter drainage, blood loss in, 402
Prostatitis, chronic bacterial and non-bacterial, 513
review of results of four regimens for treatment of chronic non-bacterial, 519
Prune belly syndrome, posterior urethral valve masquerading as the, 508
teratoma of the testis in the, 580
Pyonephrosis, calculous, pleuro-colonic fistula secondary to, 125
Pyuria, an evaluation of a simple stick test for, 298

R

Radiation, cutaneous ureterostomy as last resort treatment of intractable haemorrhagic cystitis following, 392
Radionuclide imaging in scrotal swellings, 749
Radiotherapy, adjuvant chemotherapy with doxorubicin (Adriamycin) and 5-fluorouracil in T3,NX,MO bladder cancer treated with, 386
and/or surgicopathological staging after chemotherapy in the management of metastatic germ cell tumours, evaluation of, 764
Reflux, vesicoureteric, in neonates with anorectal anomalies, 268
Renal, *see also* Kidney(s)
artery aneurysms, surgical treatment of, 341
calculi, autologous renal transplantation with direct pyelocystostomy in the treatment of recurrent, 154
laser fragmentation of, 613
carcinoma, clinically unrecognised: aspects of tumour morphology, lymphatic and haematogenous metastatic spread, 166
management of—a questionnaire survey, 591
the place of the 99m Tc-polyphosphonate bone scan in, 174
cholesteatoma, 239
cyst, benign, should it be treated?, 457
haemangioma: emergency partial nephrectomy, 336
pelvis, epidermoid carcinoma of the, with a large renal stone, 577
scanning, ^{123}Iodine. A new isotope for functional, 571
transplantation, autologous, with direct pyelocystostomy in the treatment of recurrent renal calculi, 154
tumours, aspiration cytology of solid, 249
Retention of urine, blood loss in prostatic resection after relief of acute, by prolonged catheter drainage, 402
of urine, multiple urethral calculi—an unusual cause of acute, 573
urinary, without organic cause in children, 200
Retroperitoneal fibrosis, idiopathic—the role of autotransplantation, 254

S

Sarcoid, bilateral epididymal, 240
Sarcoma, giant metastasis from prostatic neoplasm mimicking osteogenic, 446
Scan, bone, in renal carcinoma, the place of the 99m Tc-polyphosphonate, 174
Scanner, for estimating bladder volume, the accuracy of a hand-held real time ultrasound, 25
Scanning, bone, and bone marrow aspiration biopsy in the staging of prostatic cancer, 534
CT, combined bipedal lymphangiography and transabdominal lymph node aspiration cytology for node staging in carcinoma of the prostate, 538
^{123}Iodine. A new isotope for functional renal, 571

Schistosoma haematobium infection, a quantitative estimation of. Carcinoma of the urinary bladder in Zambia, 275
Schistosomiasis in urolithiasis, the role of, 349
spontaneous perforation of the bladder in association with malignant disease and, 126
Scintigraphy, skeletal, in carcinoma of the kidney, 171
Semen analysis, errors inherent in the performance of a routine, 434
Seminoma, experience with beta-HCG-positive, 555
patients, a clinical evaluation of serum placental alkaline phosphatase in, 73
Specific red cell adherence test and urothelium, 10
in benign and malignant lesions of the prostate, 405
in upper urothelial tumours, prognostic validity of the, 473
Sperm analysis, conventional, of any use?, 774
Spermatic cord in childhood, lipoma of the, 572
Sphincter, preliminary results of AS 791/792 artificial, for urinary incontinence, 684
urethral, abnormalities in Parkinsonism, 691
Spongiosography for staging male urethral carcinoma, 120
Staging after chemotherapy in the management of metastatic germ cell tumours, evaluation of radiotherapy and/or surgicopathological, 764
male urethral carcinoma, spongiosography for, 120
node, in carcinoma of the prostate, combined bipedal lymphangiography, CT scanning and transabdominal lymph node aspiration cytology for, 538
of prostatic cancer, bone marrow aspiration biopsy and bone scanning in the, 534
Stilboestrol and estramustine phosphate, change in white cell count during treatment of advanced cancer of the prostate with, 408
Stone(s), *see also* Calculi
disease, urinary, in men in Leeds, studies on the prevalence and epidemiology of, 595
from Iran, mineral composition of 103, 465
in the testicle, 449
large renal, epidermoid carcinoma of the renal pelvis with a, 577
ureteric, transurethral ureteroscopic retrieval of, 626
urinary, composition in North-East Thailand, 353
Stone-formers attending a general hospital outpatient clinic, the value of the 24-hour urine analysis in the assessment of, 1
Stone-forming spinal cord patients, the effect of oral acetohydroxamic acid on urinary saturation in, 162
Stricture(s), bilharzial, of the lower third of the ureter: a critical review of 560 strictures, 447
experience with two-stage scrotal flap urethroplasty for, 57
of the penile urethra, 235
post-catheterisation urethral. A clinical and experimental study, 53
urethral, after cardiac surgery, 413
the impact of optical urethrotomy on the management of, 705

T

Testes, bilateral interstitial cell tumour of, 123
Testicle, a stone in the, 449
Testicular cancer and Hodgkin's disease, semen analysis in: pre- and post-treatment findings and implications for cryopreservation, 769
endocrine function after withdrawal of oestrogen treatment in patients with carcinoma of the prostate, 42
non-seminoma, orchiectomy alone for stage I, 754
pain in a patient with aneurysm of the common iliac artery, 447
tumours, chemotherapy of primary (*in situ*): response in advanced metastatic disease, 560
occult germ-cell, 440
volume, the effects of vasectomy on, 83
Testis, maldescended, torsion of the appendix epididymis in a, 244
stage I germ cell tumours of the, justification of the use of surveillance in the management of, 760
teratoma of the, in the prune belly syndrome, 580
Transplantation, autologous renal, with direct pyelocystostomy in the treatment of recurrent renal calculi, 154
disappearance of cystinuria after kidney, 575
further experience of free muscle, in children with urinary incontinence, 211
Transurethral resection, the "shrinkage" of the prostate during, 38
Tuberculosis of the penis, 242
Tuberculous epididymo-orchitis. A review of 20 cases, 437
Tumour(s), adrenal, advances in the techniques of localisation of, and their influence on the surgical approach to the tumour, 617
aspiration cytology of solid renal, 249
bilateral germinal cell, in a 30-year-old man complaining of subfertility, 124
bladder, vesicoureteric reflux in patients with, 483
(Buschke-Lowenstein), verrucous carcinoma of the penis: a clinico-pathological study, 427
colony assay in the evaluation of patients with bladder cancer, use of the, 271
extragonadal presentations of germ cell, 547
metastatic germ cell, evaluation of radiotherapy and/or surgicopathological staging after chemotherapy in the management of, 764
morphology, lymphatic and haematogenous metastatic spread, aspects of, in clinically unrecognised renal carcinoma, 166
occult germ-cell testicular, 440
of testes, bilateral interstitial cell, 123
of the testis, justification of the use of surveillance in the management of stage I germ cell, 760
testicular, chemotherapy of primary (*in situ*): response in advanced metastatic disease, 560
upper urothelial, prognostic validity of the specific red cell adherence test in, 473
Wilms', interdisciplinary treatment of, 347

U

Ultrasonography for prostatic disease, progress in transrectal, 721
and fluoroscopy using a pigtail catheter, percutaneous nephrostomy under guidance of, 257
Ultrasound monitoring, perinatal: early detection and treatment of congenital uropathy, 469
scanner, hand-held real time, accuracy of, in estimating bladder volume, 25
the accuracy of, in the measurement of changes in bladder volume, 361
transrectal, and computed tomography in the diagnosis of prostatic disease—a comparative study, 726
Ureter, an unusual case of spontaneous rupture of the, presenting as an acute abdomen, 574
bilharzial strictures of the lower third of: a critical review of 560 strictures, 477
long blind-ending bifid, 578
transitional cell papilloma of the, causing hydronephrosis in a child, 572

Ureteric calculus, uretero-uterine fistula as a complication of, 242
colic—indomethacin as an alternative to pethidine in, 6
duplication with bilateral ectopic orifices, bilateral complete, 446
remnant, a technique for excising the orthotopic or ectopic, 180
stent, indwelling, the Bristol experience, 622
the use of a guide-wire for replacement of a, 581
stones, transurethral ureteroscopic retrieval of, 626
Uretero-lithotomy *in situ*—a uretero-lithotomy forcep, 100
Urethra, an unusual foriegn body in the, 129
blood concentration of lignocaine after application of 2% lignocaine gel in the, 64
carcinoma of male, with pseudohyperparathyroidism, 127
disrupting injuries of the membranous—the case for early surgery and catheter splinting, 716
fistulae involving rectum and: the place of Parks's operations, 711
pedunculated polyp of posterior, in a child, 575
Urethral calculi, multiple—an unusual cause of acute retention of urine, 573
carcinoma, male, spongiosography for staging, 120
catheters, role of catheter surface morphology and extractable cytotoxic material in tissue reactions to, 48
closure, the management of female incontinence by suprapubic catheterisation, with or without, 203
leiomyoma, obstructive, in a female, 239
polyp, congenital, in an adult, 576
pressure profiles measured by CO_2 and H_2O infusion techniques, comparative examination of female, 326
sphincter abnormalities in Parkinsonism, 691
stricture after cardiac surgery, 413
strictures, post-catheterisation. A clinical and experimental study, 53
the impact of optical urethrotomy on the management of, 705
valve, posterior, masquerading as the prune belly syndrome, 508
valves in siblings, posterior, 448
Urethroplasty for stricture, experience with two-stage scrotal flap, 57
island patch: effects on urinary flow studies and ejaculation, 69
Urethrotomy, long-term results of optical, 698
optical—a 3-year experience, 701
Otis, a controlled trial of, 694
the impact of optical, on the management of urethral strictures, 705
Urilos recording nappy system, 301
Urinary bladder, carcinoma of the, in Zambia. A quantitative estimation of *Schistosoma haematobium* infection, 275
bladder, intramural ganglia of the human, 195
diversion, is the colonic conduit a better method of?, 629
flow rates obtained from voided volumes less than 150 ml, the use of, in the assessment of voiding ability, 28
flow studies and ejaculation, effects on: island patch urethroplasty, 69
incontinence associated with detrusor instability in elderly women, emepronium bromide and flavoxate hydrochloride in the treatment of, 371
incontinence, further experience of free muscle transplantation in children with, 211
incontinence, periurethral Teflon injection: a simple treatment for, 208
particulate activity in urinary calculous disease, 95
retention without organic cause in children, 200
saturation in stone-forming spinal cord patients, the effects of oral acetohydroxamic acid on, 162
stone disease in men in Leeds, studies on the prevalence and epidemiology of, 595
stone composition in North-East Thailand, 353
tract infection, do intravenous urography and cystoscopy provide important information in otherwise healthy women with recurrent?, 261
tract infection in children, too many cystograms in the investigation of?, 217
tract, upper, does perfusion equal diuresis in the?, 133
inverted papilloma of the, 176
the biomechanical principles of pressure-flow studies, 136
Urine, acute retention of, multiple urethral calculi—an unusual cause of, 573
blood loss in prostatic resection after relief of acute retention of, by prolonged catheter drainage, 402
particulate activity in, 89
value of the 24-hour analysis in the assessment of stone-formers attending a general hospital outpatient clinic, 1
Urodynamic and histological study of the bladder in enuretic children, 367
electromyographic, neurohistochemical and autonomic study of non-obstructive detrusor failure, 652
testing, antibiotic prophylaxis after instrumentation for, 568
Uroflowmeter tester, a simple, 21
Urography, intravenous, and cystoscopy, do they provide important information in otherwise healthy women with recurrent urinary tract infection?, 261
Urolithiasis, the role of schistosomiasis in, 349

V

Vasectomy and atherosclerosis: an association in man?, 430
the effects of, on testicular volume, 83
wound infection following, 564
Vasoplasty: flap operation, 233

W

Wilms' tumour, interdisciplinary treatment of, 347
